Background

On Jan 8, 2013 NMFS published a Notice (78 FR 1201) that NMFS had received an application for a permit for scientific purposes and to enhance the propagation and survival of a listed species under the Endangered Species Act of 1973. NMFS also announced the availability for public review and comment of a Draft Environmental Assessment (EA) regarding issuance of the permit, which involves take of coho salmon listed as threatened under the ESA. The dates that these documents were to become available to the public were incorrect, and this correction clarifies when the documents will be available for public viewing and comment on the above mentioned internet address.

In addition, the email address to where comments could be submitted and has been corrected and the correct email address is not provided above in the addresses section.
